

# Nippon Kempo Sainte - Marguerite

## フランス日本拳法協会

### History

In France, Nippon Kempo was born in 1984, when Ali Zoubiri, a Judo teacher since 1981, became interested in this martial art which was unknown in France and, opened a Kempo lesson in the Saint-Dié Judo club.

In 1990, Ali Zoubiri and his students Stéphane Vandini, Rachid Bensalah and Alexis Ulmer decided to leave Saint-Dié in order to give priority to martial arts rather than money. They founded a genuine French Nippon Kempo Association (A.N.K.F).

They are then welcome in Saint-Marguerite, and become able to go on and teach a sane Nippon Kempo.

### Philosophy and méthode

Just like every martial art, Nippon Kempo is above all a spirit art, governed by a moral code : bushido. It teaches noble values like friendship, sincerity, bravery, honor, modesty, politeness, self-control and respect

Nippon Kempo enables to educate people in a significant way. Some people even talk about general therapy. The aim of practicing Nippon Kempo is to improve physical, mental and moral capacities. But it depends on the teacher. A teacher, has first to be a role model. He must pass on the bases and the principles of the discipline.

### ■Philosophy and méthode

With Nippon Kempo, we are in real fight situation, with a Bogu where we can really strike a blow, and learn to control the art.
